Professional Experience

Luke is a highly skilled designer who has worked throughout Australia and Europe on transport infrastructure, education, science, health, office, arts and cultural projects.

Prior to joining Architectus in mid 2014, Luke was a principal at HASSELL where he was a key team member responsible for the Sulman Award-winning Epping to Chatswood Rail Link and Sydney Olympic Park Station eastern entry projects.

Luke has high level client relationship and stakeholder management expertise and has been responsible for delivering projects through all project phases.

Significant Projects

Art Gallery of New South Wales, Sydney Modern Project, Sydney
Executive Architect in support of Pritzker prize-winning Japanese architectural and design firm SANAA. The Sydney Modern Project will create a global art museum for a global city with new and expanded spaces for art, live performance and film along with spaces to study and participate in cultural programs. The project will be undertaken as a State Significant Development.
